Massawepie Packing List

Important Notes

All clothing should be of quick dry material - non cotton.

Electronic equipment can be used for the ride up and back, but is not allowed in camp. Electronic equipment will be locked in vehicles, but is **not** the responsibility of the vehicle's owner if damaged.

Data service at camp is spotty at best. So don't worry if you don't hear from your scout regularly.

The amount of money to give your scout is up to you. Your scout will be responsible for keeping it. They will need money for some merit badges like Rocketry, Woodcarving or Leatherworks. Big Jakes is a popular trading store with candy and ice cream. We typically stop at a fast food restaurant for lunch on the way home.

Massawepie is considered car camping so you can't over pack.

If you go on the outpost, some modifications to this list might have to be made for clothing.

If you have any questions about what to pack, contact the SPL of Massawepie or the adult leader.
